Chairman's Report

We have great pleasure in presenting the First Mortgage PIE Trust's financial statements for the year ending 31 March 2022.

During this period, we provided our investors with a pre-tax return of 5.10%.

The First Mortgage PIE Trust was established to provide a PIE option for those First Mortgage Trust investors who benefit from Portfolio Investment Entity (PIE) tax rules.

The First Mortgage PIE Trust invests in units in the First Mortgage Trust Group Investment Fund. This structure allows investors to take advantage of the PIE tax benefits and receive the same returns provided from First Mortgage Trust's portfolio of bank deposits and loans secured by first registered mortgages.

We recommend that the financial statements of the First Mortgage Trust Group Investment Fund are read in conjunction with these financial statements.

We thank you for your ongoing support and we trust these financial statements give you further evidence that your investment is in steady hands.

MJ Smith
Chairman
First Mortgage Managers Limited

Statement of financial position

As at 31 March

	Note	2022 \$000's	2021 \$000's
Assets			
Cash and cash equivalents		1,545	888
Investment – Units in First Mortgage Trust Group Investment Fund	7	512,550	375,365

Notes to the financial statements

For the year ended 31 March 2022

1. REPORTING ENTITY

First Mortgage PIE Trust (the "PIE Fund") is an unlisted open end Unit Trust domiciled in New Zealand.

First Mortgage Managers Limited (the "Manager") in its capacity as manager of the PIE Fund is an FMC reporting entity in terms of the Financial Markets Conduct Act 2013.

Public Trust (the "Supervisor") is the trustee and supervisor of the PIE Fund.

The PIE Fund was established by a master trust deed and an establishment deed both dated 28 November 2007 between the Supervisor and the Manager as varied by deed dated 20 September 2010 and deeds of amendment and restatement dated 14 September 2015 ("Trust Deed"). The PIE Fund commenced trading on 1 January 2008.

The financial statements of the PIE Fund have been prepared for the year ended 31 March 2022.

The financial statements of the PIE Fund have been prepared by the Manager in accordance with the Financial Reporting Act 2013, the Financial Markets Conduct Act 2013 and with the provisions of the Trust Deed.

The PIE Fund is primarily involved in investment in units in First Mortgage Trust Group Investment Fund (the "FMT Fund"). The FMT Fund is primarily involved in facilitating the collective investment in first ranking mortgage backed securities and cash investments.

Readers of these financial statements should also refer to the financial statements of the FMT Fund.

2. BASIS OF PREPARATION

(a) Statement of compliance

The financial statements have been prepared in accordance with New Zealand Generally Accepted Accounting Practice ("NZ GAAP"). They comply with New Zealand Equivalents to International Financial Reporting Standards ("NZ IFRS"), and other applicable Financial Reporting Standards, as appropriate for tier 1 profit-oriented entities. The financial statements also comply with the requirements of International Financial Reporting Standards ("IFRS").

The financial statements were approved by the Directors of the Manager on 8 July 2022.

(b) Basis of measurement

The financial statements have been prepared on the historical cost basis, except in relation to investment in the FMT Fund units as outlined in 3(a).

The methods used to measure fair values for disclosure purposes are discussed further in note 3(a).

Notes to the financial statements

For the year ended 31 March 2022

2. BASIS OF PREPARATION (continued)

(c) Functional and presentation currency

The PIE Fund only holds investments in New Zealand which are denominated in New Zealand dollars.

These financial statements are presented in New Zealand dollars (\$), which is the PIE Fund's functional currency. All financial information presented in New Zealand dollars has been rounded to the nearest thousand dollars.

(d) Use of estimates and judgements

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Information about critical judgements made by management in applying accounting policies that have the most significant effect on the amount recognised in the financial statements are described in note 3(b). This relates specifically to the classification of units issued.

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

(a) Financial instruments

Non-derivative financial instruments

Non-derivative financial instruments comprise investments in the FMT Fund, other receivables, cash and cash equivalents and other payables.

Non-derivative financial instruments are recognised initially at fair value plus, for instruments not at fair value through profit or loss, any directly attributable transaction costs. Subsequent to initial recognition non-derivative financial instruments are measured at amortised cost using the effective interest method, less any impairment losses.

A financial instrument is recognised if the PIE Fund becomes a party to the contractual provisions of the instrument. Financial assets are derecognised if the PIE Fund's contractual rights to the cash flows from the financial assets expire or if the PIE Fund transfers the financial asset to another party without retaining control or substantially all risks and rewards of the asset. Regular way purchases and sales of financial assets are accounted for at settlement date, i.e., the date that the PIE Fund commits itself to purchase or sell the asset. Financial liabilities are derecognised if the PIE Fund's obligations specified in the contract expire or are discharged or cancelled.

Notes to the financial statements

For the year ended 31 March 2022

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

(a) Financial instruments (continued)

Cash and cash equivalents comprise cash balances, call and short term deposits with a remaining term to maturity of three months or less.

Investments in the FMT Fund's units are recorded at the redemption value per unit as reported by the Manager of FMT Fund. They are classified as fair value through profit and loss. Due to the nature of the FMT Fund, its units are consistently valued at \$1 as determined by the unit valuation methodology prescribed in the FMT Fund's trust deed and therefore there have been no movements in fair value in the profit and loss.

FMT Fund's units are considered to fall within Level 2 of the fair value hierarchy as defined in NZ IFRS 13 Fair Value Measurement.

(b) Investors' Funds

The PIE Fund classifies financial instruments issued as financial liabilities or equity instruments in accordance with the substance of the contractual terms of the instruments.

The PIE Fund units are puttable instruments and meet the criteria required under NZ IAS 32 Financial Instruments to be classified as equity.

A puttable financial instrument that includes a contractual obligation for the PIE Fund to repurchase or redeem that instrument for cash or another financial asset is classified as equity if it meets all of the following conditions:

- It entitles the holder to a pro rata share of the PIE Fund's net assets in the event of the PIE Fund's liquidation;
- It is in the class of instruments that is subordinate to all other classes of instruments;
- All financial instruments in the class of instruments that is subordinate to all other classes of instruments have identical features;
- Apart from the contractual obligation for the PIE Fund to repurchase or redeem the instrument for cash or another financial asset, the instrument does not include any other features that would require classification as a liability; and
- The total expected cash flows attributable to the instrument over its life are based substantially on the profit or loss, the change in the recognised net assets or the change in the fair value of the recognised and unrecognised net assets of the PIE Fund over the life of the instrument.

(c) Impairment

The carrying amounts of the PIE Fund's assets are reviewed at each reporting date to determine whether there is any objective evidence of impairment.

An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount. Impairment losses directly reduce the carrying amount of assets and are recognised in the profit and loss.

Notes to the financial statements

For the year ended 31 March 2022

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

(d) Distribution income

Distribution income comprises returns on units in the FMT Fund. Distribution income is recognised as it accrues, using the effective interest method.

(e) Income tax

The PIE Fund as a Unit Trust elected to become a Portfolio Investment Entity (PIE) from the commencement date of the Fund. The PIE Fund is required to allocate income to investors under one of the options available under the PIE rules, daily or quarterly, and then deduct tax at the investors prescribed investor rate of either 0%, 10.5%, 17.5% or 28%. The tax rate is capped at 28%. The tax deducted is a debt due to the crown and is paid directly to Inland Revenue on the investors behalf.

Any income not allocated to investors is liable for tax at 28%. The PIE Fund allocates 100% of net income to investors and as a result the PIE Fund has no undistributed surplus that would be liable for tax.

(f) New standards and interpretations not yet effective

There are a number of other standards and interpretations which are not yet effective and management consider they will have no impact on the PIE Fund.

4. MANAGEMENT FEES

The current Product Disclosure Statement for the PIE Fund states that the Manager will not charge a fee (see note 12).

5. SUPERVISOR FEES

The Trust Deed entitles the Supervisor to receive an amount not greater than 0.1% per annum calculated on the average daily balance of the PIE Fund. In addition, the Supervisor is permitted to be reimbursed out of the PIE Fund for all costs, expenses and liabilities incurred whilst acting for the PIE Fund.

The current Product Disclosure Statement states that the Manager will pay the Supervisor fees from their own resources.

6. OTHER EXPENSES

Under terms of the PIE Fund's Product Disclosure Statement the Manager meets the expenses of the PIE Fund, including audit fees. The Manager is entitled to be reimbursed for expenses by an amount equal to the interest earned on cash on hand due to timing differences between the date of distributions and the due date for the payment of tax in relation to those distributions to Inland Revenue. During the year no expenses were reimbursed (2021: nil).

Notes to the financial statements

For the year ended 31 March 2022

7. INVESTMENTS – FIRST MORTGAGE TRUST GROUP INVESTMENT FUND

	As at 31 Mar 2022 \$000's	As at 31 Mar 2021 \$000's
Current investments:		
Units in the FMT Fund at \$1 per unit	512,550	375,365
Total units and amount of investment	512,550	375,365

8. INVESTORS' FUNDS

	Year to 31 Mar 2022 Number of Units / \$000's	Year to 31 Mar 2021 Number of Units / \$000's
On issue at beginning of year at \$1 per unit	375,365	304,913
Units issued during the year at \$1 per unit	223,708	126,905
Units redeemed during the year at \$1 per unit	(86,523)	(56,453)
On issue at end of year at \$1 per unit	512,550	375,365

The investors receive quarterly distributions within 3 working days of being declared. Distributions of \$22,425,286 were declared and paid by the PIE Fund during the year ended 31 March 2022 (2021: \$14,461,585).

9. RETAINED EARNINGS

	Year to 31 Mar 2022 \$000's	Year to 31 Mar 2021 \$000's
Balance at beginning of year	-	-
Profit for the year	22,426	14,462
Distributions to investors	(22,425)	(14,462)
Balance at end of year	1	-

Retained earnings represent the net proceeds from the PIE Fund's investment activities for the year which have not yet been distributed or credited to investors. The current policy of the PIE Fund is to distribute 100% of net proceeds from investment activities.

Notes to the financial statements

For the year ended 31 March 2022

10. FINANCIAL INSTRUMENTS

Financial Risk Management

The PIE Fund's investment portfolio consists only of investments in units of the FMT Fund that it intends to hold for an indefinite period of time. In addition, the PIE Fund has financial instruments in the form of cash and cash equivalents and accounts payable and receivable which arise directly from its daily operations.

Through the holding of these investments, the PIE Fund is exposed directly and also indirectly to a variety of financial risks including: credit, market (interest rate), and liquidity risks. Therefore, the PIE Fund relies on the credit, liquidity and market risk policies of the FMT Fund to manage the PIE Fund's risk exposure. Readers of these financial statements should refer to the financial statements of the FMT Fund for information on the FMT Fund's exposure to the above risks.

The risk management policies employed by the PIE Fund are discussed in the notes below.

Equity risk

The PIE Fund has equity risk in that it invests in units in the FMT Fund.

The PIE Fund's investment policy is to invest in units in the FMT Fund. Accordingly, on a look through, the PIE Fund will have credit exposure to the FMT Fund equal to 100% of equity of the PIE Fund at all times.

The investment policy of the FMT Fund is to establish and maintain a broad range of loan investments secured by first registered mortgage over land and buildings. The PIE Fund relies on the investment policy of the FMT Fund to manage exposure to credit risk.

As at 31 March 2022 there are no other aggregate exposures to individual counterparties which equalled or exceeded 10% of the PIE Fund's Equity (2021: Nil).

The credit risk disclosures have been prepared on the basis of the PIE Fund's direct investments and not on a look through basis for investments held indirectly through the FMT Fund's units. Consequently the disclosure of credit risk in the note only represents the direct credit risk profile of the PIE Fund.

For a better understanding of credit risk users of these financial statements should read the FMT Fund's financial statements.

Liquidity risk

Liquidity risk is the risk that the PIE Fund will encounter difficulty in meeting obligations associated with financial liabilities. The PIE Fund is exposed to daily cash redemptions of units, which are accounted for as equity. The PIE Fund invests the majority of its assets in investments in the FMT Fund, which under normal market conditions are readily convertible to cash.

Notes to the financial statements

For the year ended 31 March 2022

10. FINANCIAL INSTRUMENTS (continued)

Liquidity risk (continued)

Investments in the FMT Fund are redeemable on demand, but under the terms of investment, the Manager can take up to 90 business days to settle redemptions. Payment of investor withdrawals are met by redeeming the equivalent units in the FMT Fund. For this financial structure to be viable, a high level of confidence must be preserved that the PIE Fund and the FMT Fund investor funds will be maintained.

The Manager monitors the funds' liquidity positions through the review of daily cash flow information which highlights current and known future levels of redemptions. The FMT Fund maintains a portion of the fund in liquid assets to provide for withdrawals and running expenses. As at 31 March 2022 the FMT Fund held 13.3% of the Fund in liquid assets (2021: 18.2%). The PIE Fund's approach to managing liquidity is to rely on the liquidity management of the FMT Fund.

The PIE Fund is exposed to the same liquidity risk as the FMT Fund. The PIE Fund relies on the ability to redeem a portion of any investment in the FMT Fund to meet withdrawal requests.

The liquidity risk disclosures have been prepared on the basis of the PIE Fund's direct investments and not on a look through basis for investments held in the FMT Fund. Consequently the disclosure of liquidity risk in the note only represents the direct liquidity risk profile of the PIE Fund.

For a better understanding of liquidity risk users of these financial statements should read the FMT Fund's financial statements.

Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair value of financial instruments.

The investments in units in the FMT Fund provide a floating rate return. As a result, the PIE Fund is directly subject to risk due to fluctuations in the prevailing levels of market interest rates. The distribution rate on investment in these units as at 31 March 2022 was 5.18% (2021: 4.00%). Cash and cash equivalents are held in a call account on a floating rate. The weighted average interest rate on cash and cash equivalents as at 31 March 2022 was 0.20% (2021: 0.05%).

The interest rate risk disclosures have been prepared on the basis of the PIE Fund's direct investments and not on a look through basis for investments held in the FMT Fund. Consequently the disclosure of interest rate risk in the note only represents the direct interest rate risk profile of the PIE Fund.

For a better understanding of interest rate risk users of these financial statements should read the FMT Fund's financial statements.

Notes to the financial statements

For the year ended 31 March 2022

10. FINANCIAL INSTRUMENTS (continued)

Capital management

The PIE Fund's capital consists of investors' funds, and is not subject to any externally imposed capital requirements. See discussion on liquidity risk above for capital management techniques for investors' funds.

Sensitivity analysis

The quarterly distribution to investors is the quarterly net profit arising from operations, after allowing for expenses, bad debts, and taxes.

The key driver of this distribution is income from the investment in the FMT Fund. A 1% increase/(decrease) in the distribution rates received from the FMT Fund and bank deposits would normally drive a corresponding 1% increase/(decrease) in the distribution to investors.

Estimation of fair values

The methods used in determining the fair values of financial instruments are discussed in note 3. The PIE Fund's investments are carried at fair value on the statement of financial position. For certain other financial instruments (including accounts payable) the carrying amounts approximate fair value due to their immediate or short-term nature.

11. RECONCILIATION OF THE PROFIT FOR THE YEAR WITH THE NET CASH FROM OPERATING ACTIVITIES

	Year to 31 Mar 2022 \$000's	Year to 31 Mar 2021 \$000's
Profit for the year	22,426	14,462
<i>Adjustments for:</i>		
Change in distributions receivable	-	-
Net cash from operating activities	22,426	14,462

12. RELATED PARTIES

(a) Nature of relationship

The PIE Fund is managed by the Manager as outlined in the Product Disclosure Statement. The Manager makes all decisions relating to administration, investment management, investment applications, and the management of the PIE Fund's investment portfolio. The Manager's responsibilities are set out in detail in the registered Trust Deed between the Manager and the Supervisor. The Manager does not hold or own any of the assets of the PIE Fund. The Manager does not guarantee the return of principal or income to investors.

The Supervisor is the appointed trustee and supervisor of the PIE Fund. The role of the Supervisor is to hold all of the assets of the PIE Fund on behalf of investors and to monitor compliance by the Manager with the requirements of the Trust Deed.

Notes to the financial statements

For the year ended 31 March 2022

12. RELATED PARTIES (continued)

(a) Nature of relationship (continued)

The Supervisor's responsibilities are set out in detail in the Trust Deed. The Supervisor is required to exercise reasonable diligence to ascertain whether or not a breach of the terms of the Trust Deed or the offer of units has occurred. The Supervisor does not guarantee the return of principal or income to investors.

The Supervisor and Manager are indemnified by the PIE Fund on the terms set out in clause 25.2 of the Trust Deed. The Supervisor and Manager are entitled to be reimbursed out of the PIE Fund for all expenses, costs or liabilities incurred by them acting as supervisor or manager. General expenses and supervisor fees in relation to the PIE Fund are met by the Manager in the first instance. The Manager is reimbursed for these expenses to the extent of interest earned on cash on hand in the PIE Fund due to timing differences between the payment of distributions from the PIE Fund and the due date for payment of tax in relation to those distributions to Inland Revenue.

The FMT Fund is also managed by the Manager and the PIE Fund invests in the FMT Fund.

Directors of the Manager are also considered related parties of the PIE Fund.

Directors of the Manager may be trustees in their professional capacity as solicitors of trusts that borrow from the FMT Fund or invest in the PIE Fund or the FMT Fund. In these cases the director is not a named beneficiary of the trust.

Except for loans where a director of the Manager is a trustee in a professional capacity there are no loans to related parties by the FMT Fund as at balance date.

(b) Transactions and balances

As at 31 March 2022 directors and key management personnel of the Manager, either individually or through related interests, held units to the value of \$121,855 in the PIE Fund which invests in the FMT Fund and received \$23,480 of distributions during the year (2021: \$683,312 units held and \$19,561 of distributions received for the year).

The Manager as manager of the PIE Fund receives a fee on funds invested by the PIE Fund in the FMT Fund direct from the FMT Fund. The Manager is entitled to a management fee of 1.5% plus GST (if any) per annum calculated on the average daily balance of the FMT Fund. The Manager charged the full management fee during the year ending 31 March 2022. To reimburse the Manager for expenses incurred in collecting overdue mortgages, the Manager may charge the FMT Fund an amount equal to half of the penalty interest (if any) received on those loans. During the year \$140,155 was charged when penalty interest was recovered (2021: \$257,392). In addition, the Manager is permitted to be reimbursed out of the FMT Fund for all costs, expenses and liabilities incurred whilst acting for the FMT Fund.

Notes to the financial statements

For the year ended 31 March 2022

12. RELATED PARTIES (continued)

(b) Transactions and balances (continued)

Management fees paid to the Manager as manager of the FMT Fund during the year were \$19,308,486 (2021: \$15,076,767), of which \$6,703,750 (2021: \$5,042,094) related to the PIE Fund investment.

In addition, during the year Borrowers of the FMT Fund have paid loan processing fees direct to the Manager of \$15,852,738 (2021: \$9,960,194). The fees are loan establishment fees which are generally paid by the FMT Fund across to the Manager from loan advances made to the Borrower.

Supervisor fees paid to the Supervisor are detailed in note 5.

As at 31 March 2022 the PIE Fund held units to the value of \$512,549,945 (2021: \$375,365,015) in the FMT Fund and received \$22,425,286 of distributions during the year (2021: \$14,461,585). The value of units issued by the FMT Fund to the PIE Fund during the year was \$223,708,400 (2021: \$126,904,593) and the value of the units redeemed by the FMT Fund to the PIE Fund during the year was \$86,523,470 (2021: \$56,452,830).

13. SUBSEQUENT EVENTS

There have been no material events subsequent to the reporting date that require disclosure in these financial statements.

Independent Auditor's Report

To the investors of First Mortgage PIE Trust

Report on the audit of the financial statements

OPINION

In our opinion, the financial statements of First Mortgage PIE Trust (the 'PIE Fund') on pages 4 to 17:

Present fairly in all material respects the PIE Fund's financial position as at 31 March 2022 and its financial performance and cash flows for the year ended on that date in accordance with New Zealand Equivalents to International Financial Reporting Standards and International Financial Reporting Standards.

We have audited the accompanying financial statements which comprise:

- The statement of financial position as at 31 March 2022;
- The statements of comprehensive income, changes in equity and cash flows for the year then ended; and
- Notes, including a summary of significant accounting policies and other explanatory information.

BASIS FOR OPINION

We conducted our audit in accordance with International Standards on Auditing (New Zealand) ('ISAs (NZ)'). We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the PIE Fund in accordance with Professional and Ethical Standard 1 *International Code of Ethics for Assurance Practitioners (Including International Independence Standards) (New Zealand)* issued by the New Zealand Auditing and Assurance Standards Board and the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* ('IESBA Code'), and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Our responsibilities under ISAs (NZ) are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report.

Our firm has also provided other services to the PIE Fund in relation to the investor register assurance and tax consulting. Subject to certain restrictions, partners and employees of our firm may also deal with the PIE Fund on normal terms within the ordinary course of trading activities of the business of the PIE Fund. These matters have not impaired our independence as auditor of the PIE Fund. The firm has no other relationship with, or interest in, the PIE Fund.

MATERIALITY

The scope of our audit was influenced by our application of materiality. Materiality helped us to determine the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, both individually and on the financial statements as a whole. The materiality for the financial statements as a whole was set at \$2.5 million determined with reference to a benchmark of PIE Fund Total Assets. We chose the benchmark because, in our view, this is a key measure of the PIE Fund's performance.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements in the current period.

Due to the simple nature of the PIE Fund's operations, it was determined that there were no key audit matters to report.

USE OF THIS INDEPENDENT AUDITOR'S REPORT

This independent auditor's report is made solely to the Investors as a body.

Our audit work has been undertaken so that we might state to the Investors those matters we are required to state to them in the independent auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Investors as a body for our audit work, this independent auditor's report, or any of the opinions we have formed.

RESPONSIBILITIES OF THE DIRECTORS OF THE MANAGER FOR THE FINANCIAL STATEMENTS

The Directors of the Manager, on behalf of the PIE Fund, are responsible for:

- The preparation and fair presentation of the financial statements in accordance with generally accepted accounting practice in New Zealand (being New Zealand Equivalents to International Financial Reporting Standards) and International Financial Reporting Standards;
- Implementing necessary internal control to enable the preparation of a set of financial statements that is fairly presented and free from material misstatement, whether due to fraud or error; and
- Assessing the ability to continue as a going concern. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate or to cease operations, or have no realistic alternative but to do so.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objective is:

- To obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error; and
- To issue an independent auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs NZ will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of these financial statements is located at the External Reporting Board (XRB) website at: <http://www.xrb.govt.nz/standards-for-assurance-practitioners/auditors-responsibilities/audit-report-2/>

This description forms part of our independent auditor's report.

The engagement partner on the audit resulting in this independent auditor's report is John Kensington.
