

Fund Update

Quarter ending 31 March 2025

First made publicly available on 1 May 2025

Fund name
First Mortgage Trust Group Investment Fund

Registered scheme
First Mortgage Trust Group Investment Fund

What is the purpose of this update?

This document tells you how the First Mortgage Trust Group Investment Fund ("FMT GIF") has performed and what fees were charged. The document will help you to compare the fund with other funds. First Mortgage Managers Limited ("Manager") prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The FMT GIF invests in loans secured by registered first mortgages over land and buildings and cash deposits with registered banks. The investment objective is to provide investors with an income return at a level better than bank deposits and competitive with comparable investment products.

Total value of the fund	\$1,898,537,948
The date the Fund started	31 March 2001

What are the risks of investing?

Risk indicator for the FMT GIF.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the FMT GIF's assets goes up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance.

The risk indicator is based on the returns data for the 5 year period ending 31 March 2025. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

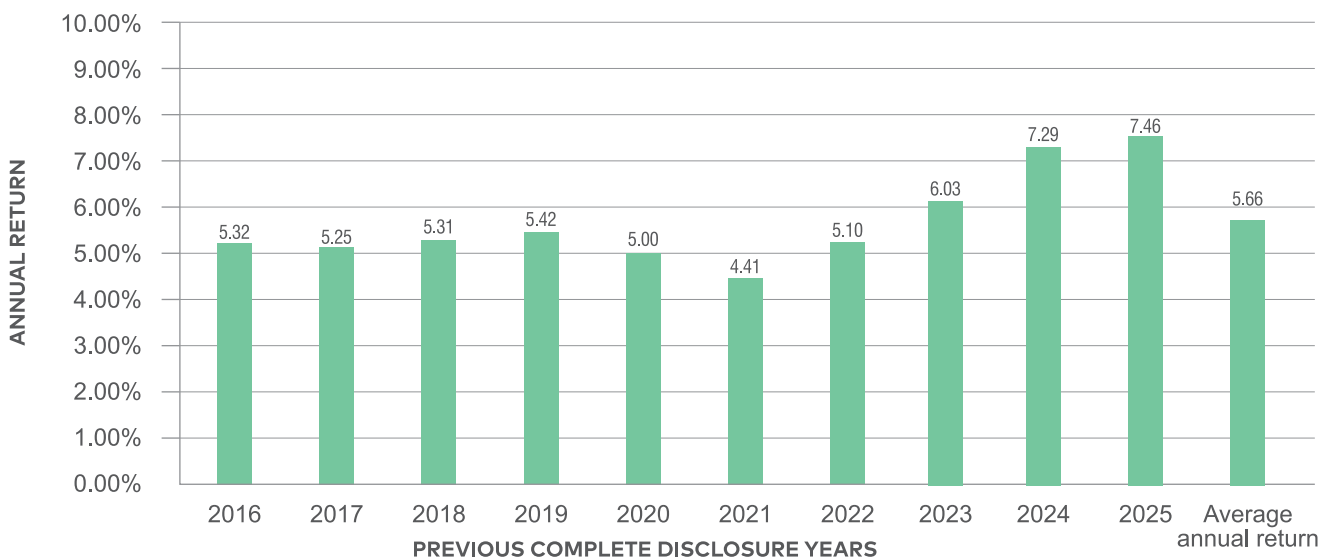

How has the fund performed?

	Average over past 5 years	Past year
Annual return * (after deductions for charges and tax)	6.06%	7.46%
Annual return (after deductions for charges but before tax)	6.06%	7.46%

* The FMT GIF does not pay tax on investor income, it does however deduct withholding tax from individual investor returns at their elected withholding tax rate. See the PDS for more information on tax.

There is no appropriate comparative market index and no suitable comparable index or benchmark for the FMT GIF against which to assess either movements in the market in relation to the returns from the assets in which the FMT GIF invests or the performance of the FMT GIF as a whole. For further information see the document entitled "No Market or Peer Group Indices" available on the offer register.

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2025. Important: This does not tell you how the fund will perform in the future.

What fees are investors charged?

Investors in the FMT GIF are charged fund charges. In the year to 31 March 2025 these were:

	% of net asset value
(A) Total Fund charges = B + C Which are made up of -	1.63%
(B) Total management and administration charges = E + F Including-	1.63%
(E) Manager's basic fee	1.52%
(F) Other management and administration charges	0.11%
(C) Total performance-based fees	Nil
(D) Other Charges	Nil

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). The above fees are inclusive of GST and represent the actual fees charged for the year. This differs from the PDS which shows the estimated annual fees. See the PDS for more information about those fees.

Example of how this applies to an investor.

Small differences in fees and charges can have a big impact on your investment over the long term.

Jane had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Jane received a return after fund charges were deducted of \$746 (that is 7.46% of her initial \$10,000). This gives Jane a total return after tax of \$746 for the year before the deduction of withholding tax at her elected withholding tax rate.

What does the fund invest in?

Actual investment mix

This shows the types of assets that the fund invests in.

Target investment mix

This shows the mix of assets that the fund generally intends to invest in.

Cash and cash equivalents are cash held on-call or term deposits with a remaining term to maturity of three months or less.

New Zealand fixed interest are term deposits with a remaining term to maturity of greater than three months but less than two years.

Other assets are loans secured by registered first mortgages over land and buildings in New Zealand.

Top 10 investments

Name	Percentage of fund net assets	Type	Country	Credit rating (if applicable)

Commercial - secured loans for which the principal secured property is commercial property

Rural - secured loans for which the principal secured property is rural property

Cash - cash held on-call or term deposits with a remaining term to maturity of three months or less.

Term deposits - term deposits with a remaining term to maturity of greater than three months but less than two years.

* The Manager has prepared this additional information in accordance with the Financial Markets Conduct (Managed Funds - Loan Disclosure Requirements) Exemption Notice 2024.

Composition of secured loans

This table shows the composition of the secured loans expressed as a percentage of the total loans according to each geographical region and, within each geographical region, shows the proportion of secured loans according to asset types.

		Grand Total	Residential	Commercial	Rural	
	1	Northland	0.22%	0.12%	0.07%	0.03%
	2	Auckland	60.17%	36.13%	22.17%	1.87%
	3	Waikato	4.26%	2.93%	0.68%	0.65%
	4	Bay of Plenty	6.49%	2.63%	0.98%	2.88%
	5	Gisborne	0.00%	0.00%	0.00%	0.00%
	6	Hawke's Bay	0.40%	0.34%	0.05%	0.01%
	7	Taranaki	0.17%	0.16%	0.01%	0.00%
	8	Manawatū -Whanganui	0.23%	0.04%	0.10%	0.09%
	9	Wellington	12.01%	5.41%	6.30%	0.30%
	10	Tasman	0.00%	0.00%	0.00%	0.00%
	11	Nelson	0.83%	0.70%	0.13%	0.00%
	12	Marlborough	0.12%	0.12%	0.00%	0.00%
	13	West Coast	0.00%	0.00%	0.00%	0.00%
	14	Canterbury	10.20%	6.62%	2.48%	1.10%
	15	Otago	4.75%	3.79%	0.37%	0.59%
	16	Southland	0.15%	0.15%	0.00%	0.00%

There was one impaired secured loan at the time this fund update was prepared. The below table shows the composition of the impaired secured loan expressed as a percentage of the total loans according to each geographical region and, within each geographical region, shows the proportion of the impaired secured loan according to asset type.

Region	Percentage by geographic region	Proportion by asset type: Residential	Proportion by asset type: Commercial	Proportion by asset type: Rural
Hawke's Bay	0.19%	0.19%	0.00%	0.00%

Secured loans are allocated an asset type based on the zoning of the principal secured property (by value) that is set in the local council's district plan.

Maximum loan to value ratios for each type of secured loan

Loans secured (or principally secured) by mortgage over residential property	Loans secured (or principally secured) by mortgage over commercial property	Loans secured (or principally secured) by mortgage over rural property
Fee simple land and buildings: up to 75% LVR		Fee simple : up to 60% LVR
Land with power, water, sewage and associated services ("Services") completed: up to 70% LVR	Fee simple land and buildings: up to 66.7% LVR	Property used for dairy farming (fee simple): up to 66.67% LVR
Leasehold: up to 50% LVR	Leasehold: up to 50% LVR	Leasehold: up to 50% LVR
Vacant land which does not have Services: up to 50% LVR	Vacant land which does not have Services: up to 50% LVR	Vacant land: up to 50% LVR

Note: LVR means loan-to-value ratio. LVR shows the amount of a loan as a percentage of the value of the property that secures the loan. The lower the LVR, the lower the amount of the loan relative to the value of the secured property.
